

FEED PEOPLE. FIGHT HUNGER.

June 30, 2011

To Whom It May Concern:

Day of Action is a day of work and fun to aid local nonprofit health and human service agencies in Summit County. We were honored to have a group of eleven people from Corporate Technologies Group, Inc. volunteer with the Akron-Canton Regional Foodbank on Friday, June 17, 2011.

Volunteers are an integral part of the Foodbank and the individuals from Corporate Technologies Group, Inc. certainly fit the bill. They were energetic and eager to do the project set before them. The project(s) they completed will have immediate impact on feeding local men, women and children in our eight county service area. They did a fantastic job of repacking **462 pounds** of assorted chips and **1392 pounds** of tortilla chips! Collectively, this group volunteered a total **of 52 hours!** We are so grateful that they chose the Foodbank and we look forward to having them volunteer again in the near future!

Please feel free to contact me if you have any questions.

Sincerely,

Cynthia K. Humphrey
